

## **DETAILED ACTION**

### ***Status of the Claims***

Receipt is acknowledged of the Applicant's Response filed on 02/03/10. Claims 36, 38-40, 42-44, 46-48 and 50-54 are pending.

Upon consideration of the provided NPL by Linder et al (2004) showing that visceral fat tissue and subcutaneous fat tissue are significantly different, the 103 rejection of record is hereby removed, since Okuno et al findings are with respect to oral administration of perilla oil reducing visceral fat and not subcutaneous fat implicated in cellulite.

### ***Reasons for allowance***

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a method of ameliorating or treating cellulite comprising topically applying from about 0.01wt% to about 10 wt% perilla oil to an area of skin affected by cellulite.

Therefore the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Claims 36, 38-40, 42-44, 46-48 and 50-54 are allowed.
